Subject: DAPL Opposition-Water Protectors Under Night Time Chemical Attack removed.txt

Good morning Tracy,

I just receive this private video from a fellow Colleague/friend. The video discloses that the Water Protectors campsite may be under nighttime chemical attack by ETP, Morton County sheriff's Dept. or the state of North Dakota. Unknown and unconfirmed.

<https://www.facebook.com/messages/1004376480>

Hopefully you or the President can have someone look into this. There are now more than just Native at the sites. John F. Kennedy Jr. is there.

John F. Kennedy's Statement.
